

The Monumental Masterwork of "THE GRAND OLD MAN OF ECONOMICS"*

Considered by many to be the counterweight of Marx's *Das Kapital*,

HUMAN ACTION

is the magnum opus of a genius.

LUDWIG VON MISES is now universally acknowledged as one of the fountainheads of the worldwide movement toward individual liberty.

Here is the classic defense of capitalism, whose impact
and influence continue to grow.

"If any single book can turn the ideological tide that has been running in recent years so heavily toward statism, socialism, and totalitarianism, *Human Action* is that book."

— Henry Hazlitt, *Newsweek*

"*Human Action* is a magnificent book, intellectual power roars through it like a great wind; it has the impetus of first-rate polemic and the impeccable coherence of Euclid."

— *The Economist* (London)

"[A] storehouse of provocative ideas embracing not merely the socialist experiments but the whole field of human action...it ought to be on the bookshelf of every thinking man."

— Vermont Royster, *Wall Street Journal*

"[U]nquestionably the most powerful product of the human mind in our time, and I believe it will change human life for the better during the coming centuries as profoundly as Marxism has changed all our lives for the worse in this century."

— Rose Wilder Lane, *Economic Council Review of Books*

"Mises is the first to work out economics on a firm foundation on the principle of individual action.... This is the economic bible for the civilized man."

— Murray N. Rothbard, *Analysis*
