INDEX OF NAMES

NOTE: This index includes the titles of parts, chapters, and sections, each listed under appropriate subject classifications. With the exception of these specific page references, which are hyphenated, the numbers in each instance refer to the *first* page of a discussion. A page number followed by a figure in parentheses indicates the number of a footnote reference.

BOOKS BY MURRAY N. ROTHBARD

A History of Money and Banking in the United States: The Colonial Era to World War II. Auburn, Ala.: Ludwig von Mises Institute, 2002.

America's Great Depression. Princeton, N.J.: D. Van Nostrand, 1963. Reprinted by the Ludwig von Mises Institute, 2000. This, the 5th edition, has an introduction by Paul Johnson.

An Austrian Perspective on the History of Economic Thought. Vol. 1: *Economic Thought before Adam Smith.* Vol. 2: *Classical Economics.* Aldershot, U.K.: Edward Elgar, 1995.

The Case Against the Fed. Auburn, Ala.: Ludwig von Mises Institute, 1994.

The Case for a 100 Percent Gold Dollar. Auburn, Ala.: Ludwig von Mises Institute, 1991. This essay originally appeared in the volume *In Search of a Monetary Constitution*, edited by Leland B. Yeager. Harvard University Press, 1962.

Conceived in Liberty. 4 vols. New Rochelle, N.Y.: Arlington House, 1975. Reprinted by the Ludwig von Mises Institute, 1999.

Egalitarianism as a Revolt Against Nature and Other Essays, 2nd ed. Auburn, Ala.: Ludwig von Mises Institute, 2000. Originally appeared in *Modern Age* (Fall 1973).

The Ethics of Liberty. Atlantic Highlands, N.J.: Humanities Press, 1982. Reprinted by New York University Press, 1998.

For a New Liberty: The Libertarian Manifesto. New York: Macmillan, 1973. Revised edition with a preface and new first chapter, retitled as *The Libertarian Heritage*, by Collier Books, 1978.

The Logic of Action One: Method, Money, and the Austrian School. Vol. 2: *Applications and Criticism from the Austrian School.* Cheltenham, U.K.: Edward Elgar, 1997.

The Logic of Action Two: Applications and Criticism from the Austrian School. Cheltenham, U.K.: Edward Elgar, 1997.

Making Economic Sense. Auburn, Ala.: Ludwig von Mises Institute, 1995.

Man, Economy, and State. Los Angeles: Nash, 1962. Combined in this present edition with *Power and Market* to form the Scholar's Edition of *Man, Economy, and State with Power and Market.* Auburn, Ala.: Ludwig von Mises Institute, 2004.

The Mystery of Banking. New York: Richardson and Snyder, 1983.

The Panic of 1812: Reactions and Policies. New York: Columbia University Press, 1962.

Power and Market. Kansas City, Mo.: Sheed Andrews and McMeel, 1970. Combined in this present edition with *Man, Economy, and State* to form the Scholar's Edition of *Man, Economy, and State with Power and Market.* Auburn, Ala.: Ludwig von Mises Institute, 2004.

What Has Government Done to Our Money? Colorado Springs, Colo.: Pine Tree Press, 1963. Reprinted 4th edition by the Ludwig von Mises Institute, 1990.

Murray N. Rothbard
(1926–1995)

The revival of Austrian economics as a living scientific movement can be dated from the publication of Rothbard's *Man, Economy, and State* in 1962. As a contribution to Austrian economics, and to pure economics in general, it ranks as one of the most brilliant performances in the history of economic thought. The treatise, written in scintillating prose, deduces the entire corpus of economic theory step by step from its theoretical foundations to its applications,

and goes beyond Rothbard's predecessors in many areas of theory and policy.

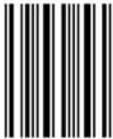

This Mises Institute edition includes the original last section of the book, removed by the first publisher but appearing in 1970 under the title *Power and Market*. This section provides such a powerful case for the free market as to leave no escape hatch for any government intervention.

Hence, this is the first fully unified edition of Rothbard's classic, published as the author wrote it, with a new introduction by Joseph Salerno.
