	Current Misinterpretations of Modern Natural Science, Especially of Darwinism	

Chapter IX. The Role of Ideas

1	Human Reason	177
2	World View and Ideology	178
	The Fight Against Error	
3	Might	187
	Traditionalism as an Ideology	
4	Meliorism and the Idea of Progress	191

Chapter X. Exchange Within Society

1	Autistic Exchange and Interpersonal Exchange	194
2	Contractual Bonds and Hegemonic Bonds	195
3	Calculative Action	198

PART THREE ECONOMIC CALCULATION

Chapter XI. Valuation Without Calculation

1	The Gradation of the Means	200
---	----------------------------------	-----

2	The Barter-Fiction of the Elementary Theory of Value and Prices	201
	The Theory of Value and Socialism	
3	The Problem of Economic Calculation	206
4	Economic Calculation and the Market	209

Chapter XII. The Sphere of Economic Calculation

1	The Character of Monetary Entries	212
2	The Limits of Economic Calculation	214
3	The Changeability of Prices	217
4	Stabilization	219
5	The Root of the Stabilization Idea	223

Chapter XIII. Monetary Calculation as a Tool of Action

1	Monetary Calculation as a Method of Thinking	229
2	Economic Calculation and the Science of Human	231

PART FOUR CATALETTICS OR ECONOMICS OF THE MARKET SOCIETY

Chapter XIV. The Scope and Method of Catalellactics

1	The Delimitation of Catalellactic Problems	232
	The Denial of Economics	
2	The Method of Imaginary Constructions	236
3	The Pure Market Economy	237
	The Maximization of Profits	
4	The Autistic Economy	243
5	The State of Rest and the Evenly Rotating Econorny	244
6	The Stationary Economy	250
7	The Integration of Catalellactic Functions	251
	The Entrepreneurial Function in the Stationary Economy	

Chapter XV. The Market

1	The Characteristics of the Market Economy	257
2	Capital Goods and Capital	259
3	Capitalism	264
4	The Sovereignty of the Consumers	269
	The Metaphorical Employment of the Terminology of Political Rule	

5	Competition	273
6	Freedom	279
7	Inequality of Wealth and Income	287
8	Entrepreneurial Profit and Loss	289
9	Entrepreneurial Profits and Losses in a Progressing Economy	294
	The Moral Condemnation of Profit	
	Some Observations on the Underconsumption Bogey and on the Purchasing Power Argument	
10	Promoters, Managers, Technicians, and Bureaucrats	303
11	The Selective Process	311
12	The Individual and the Market	315
13	Business Propaganda	320
14	The “Volkswirtschaft”	323

Chapter XVI. Prices

1	The Pricing Process	327
2	Valuation and Appraisement	331
3	The Prices of the Goods of Higher Orders	333
	A Limitation on the Pricing of Factors of Production	
4	Cost Accounting	339
5	Logical Catalectics Versus Mathematical Catalectics	350
6	Monopoly Prices	357
	The Mathematical Treatment of the Theory of Monopoly Prices	
7	Good Will	379
8	Monopoly of Demand	383
9	Consumption as Affected by Monopoly Prices	384
10	Price Discrimination on the Part of the Seller	388
11	Price Discrimination on the Part of the Buyer	391
12	The Connexity of Prices	391
13	Prices and Income	393
14	Prices and Production	394
15	The Chimera of Nonmarket Prices	395

Chapter XVII. Indirect Exchange

1	Media of Exchange and Money	398
2	Observations on Some Widespread Errors	398
3	Demand for Money and Supply of Money	401
	The Epistemological Import of Carl Menger’s Theory of the Origin of Money	
4	The Determination of the Purchasing Power of Money	408
